At Tiny Einstein Child Development Center, we believe in providing children with the best. Our approach is one that integrates play with academics that children need to be successful later in school. We are a preschool for bilingual learning and unites Russian traditions, expertise and culture with U.S. dynamics, innovation, and ambition. Our center supports the needs of our children completely, by providing them with space and materials to fully explore and learn. Our staff consists of a mix of native speaking Russian and English-speaking teachers, all with high levels of education and years of experience in the child development field.
